

LA MENSAGE DESDE LA COMPAÑIA PLANTEL DE CENTRAL" (A Message from the Central Nursery)
LOCALIDAD DE LA COMPAÑIA (Address) 2675 Johnson Ave., San Luis Obispo, Calif., U.S.A.

NECESITAR

"SEMILLAS DE TODOS ESPECIES"

Nosotros deseamos todo variedades de semillas por a comprar por nuestras
clientes que desean semillas de palmas, plantas de tropicos, semillas de ar-
boles, vides y arbustos de ornamentalis, y mucho semillas de arboles de frutas
tropicalis, y mucho mucho semillas de plantas Yucca (Candelas de Dios). Complace
Ustedes y escribe en Ingles los precios des semillas estan availabilimente....

WANTED !!!

"SEEDS OF ALL KINDS"

FOR
TIA
A
V
I
S
O

Please check on all the seeds you can supply and send to us your lists...
If you do not know the name of plants growing in your area you can take, twigs
leaves, flowers, or seeds to have them identified to your nearest agricultural
adviser, agricultural inspector, school botanist, school grounds keeper, parks
director, forester, flower club, nursery firm, or you can get books at the
Library... Many thousands of people collect seeds and the demand is even greater
than before.... We purchase seeds from many different sources and we hope we
can make an agreement with you to purchase the seeds we may need in the future
for our domestic and overseas customers.....

WE SPECIALIZE IN TROPICAL, NORTHERN, ARID, SEA-COAST, CORAL ISLAND FORESTRATIONS, also
do research in conservation, reclamation, developing, hybridizing and marketing....
OUR RESEARCH INCLUDES THE BELOW MENTION CROPS

FI
MEN
MEN
MEN
ZIN
FIN
FI
RI

Citrus, Walnut, Mango, Pistacia, Avacado, Annona, Prunus, Pyrus,
Apple, Coffee, Lythoe, Carica, Sapote, Fig,
Macadamia, Pecan, Hickory, Eugenia,
Date*, Pineapple*, Persimmon, *acclimatization
Corylus, Castanea, Olive, of variety
Tung Oil, Garcinia,
Micellaneous
Crops

FOR OVER TEN YEARS WE HAVE WORKED UPON ROOTSTOCKS FOR THE ABOVE MENTION AND HAVE
PIONEERED THE RESEARCH IN THE TROPICAL EVERGREEN COMMERCE TREES, THAT OF THE
Evergreen Peach, Evergreen Apple, Evergreen Cherry, Evergreen Walnut, and other
Northern Frigid Species That Can Be Acclimated To The Tropical Regions of the World
We are now working on the Introduction of the Evergreen Poplars, Maples, Chestnuts
Alders, Persimmons, Mulberries, Dogwoods, Etc... We have discovered many usefull
Species and Varieties for Future Accomplishments in Hybridization of both Ornament
and Food Producing Plants... It is our opinion that the Orange and Lemon trees
and the Coconut Palm, by cross breeding with their plant relations can be develop-
ed to tolerate temperatures near 0 degrees... We also suggest that a Plastic Base
Chemical be developed that will discourage heavy frost from damaging crops some
Winters... We assume the same Chemical that is (sprayed) on lakes and reservoirs to
stop water evaporation can be modified to stop great losses from freezing.....
PLEASE WRITE TO US IF YOU ARE IN THE RESEARCH BUSINESS OF, Radiation, Hybridizing,
Chemical Research and other Fields Relating to Botanical Advance Sciences.....

WE OFFER THE FOLLOWING KINDS OF SEEDS FOR SALE

AZALEAS	FLOWERS	FIR TREES	MAGNOLIAS	RHODODENDRONS	TROPICALS
BIRD OF PARADISE	EVERGREENS	EUCALYPTUS	ORCHIDS	PINES	VEGETABLES
